

Workshop

3D and 4D Microscopy Image Visualization & Analysis with IMARIS

Michael Mahlert, PhD

23.05. 11:00 IMARIS Introduction

MPI, Auditorium small half

Seminar about microscopy image analysis. 3D Image visualisation, segmentation and analysis, tracking of moving objects and developing organisms, filament analysis and analysis of cellular relationships and colocalisation will be covered.

23.05. 14:00, MPI IMARIS Analysis Clinic

Bring your datasets to be discussed and analysed in small group appointments

24.05. 09:00, MTZ IMARIS Analysis Clinic

Bring your datasets to be discussed and analysed in small group appointments

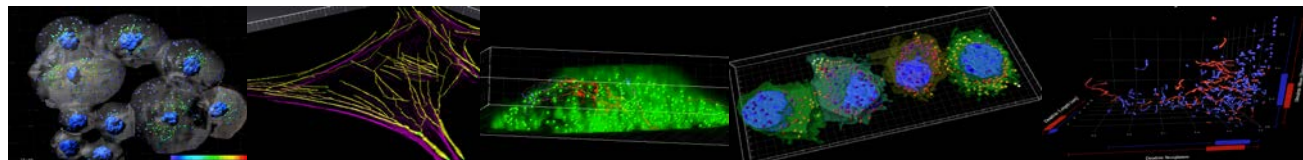

Please register for the workshop at <http://indico.mpi-cbg.de/e/ImarisWorkshop2016>
