

BioDIP Winter Seminar

Fluorescence Lifetime Imaging Microscopy (FLIM)

Stefanie Weidkamp-Peters
(CAI, HHU Düsseldorf)

Introduction into FLIM

A tool to study protein interaction and complex formation in living cells

Sigrun Hofmann
(UKD)

Protein interactions within the inflammasom - Analysis of interacting proteins by FLIM-FRET

Julia Janssen
(MTZ)

In vivo FLIM-FRET as a novel technique to assess cAMP and cGMP in the intact zebrafish heart

Gokul Kesavan
(CRTD)

FRET-based Tension Sensor: Measuring forces in the developing zebrafish embryo

Date: **January 17, 2017**

Time: **2 - 4 pm**

Location: **MPI-CBG, small auditorium**

Everybody is very welcome!
